ABOUT ME

Dynamic frontend engineer specializing in building high-performance, user-centric web applications with React.js, Tailwind CSS, and modern JavaScript ecosystems. Proven ability to integrate complex APIs, deliver real-time functionality, and optimize UX through performance tuning and responsive design. Brings a unique edge with a background in finance, enabling the development of scalable, data-driven solutions that align with business goals and enhance user engagement.

EDUCATION AND TRAINING

Association of Chartered Certified Accountants	Aug 2021 – Current
University of Ghana – Legon	Aug 2017 – Sept 2021
Programme: BSC. Administration(Accounting)	
Ofori Panin Senior High School - Kukurantumi	Aug 2014 - June 2017
Programme: Business	

WORK EXPERIENCE

Frontend Developer, Freelance/ Personal Project	Jan 2024 – Current
- Built and deployed a dynamic full-stack music and lyrics platform, leveraging React with Express.js, seamlessly integrating Spotify and Genius APIs for a rich user experience. - Created an immersive 3D product showcase for the iPhone 15 Pro using React, Three.js, and GSAP animations, blending modern aesthetics with interactivity. - Developed a real-time chat platform with React, GraphQL, and WebSockets, to deliver instant, scalable messaging functionality. - Engineered a live wildfire tracking app with Leaflet maps and NASA data, showing React's capability in geolocation, dynamic rendering and third-party API integration.	
Junior Accountant, Asar Ramofh Limited Spintex, Accra	Oct 2021 – Feb 2023
- Managed financial operations, including receivables, payables, payroll, and general ledger, ensuring 98% accuracy in reporting. - Prepared financial statements, tax returns (income, sales, payroll), and client reports, maintaining a 90% client retention rate. - Conducted audits, resolved discrepancies, and provided personalized financial advice to a portfolio of 5+ clients.
